

Where to Eat Pizza in Toronto

Introduction :

1) Description of The Problem and Discussion of The Background :

The Problem :

Where You Should Go to Eat a Great Pizza in Toronto ?

Description of The Problem :

Many Tourists and People from different cities come to visit Toronto and they don't know the best places to visit in result of that they don't know the best Pizza restaurant they can visit to Eat a good Pizza with it's different kinds as a result they visit any restaurant that is nearby them.

Discussion of The Background :

Toronto is the provincial capital of Ontario. With a recorded population of 2,731,571 in 2016, it is the most populous city in Canada and the fourth most populous city in North America. The city is the anchor of the Golden Horseshoe, an urban agglomeration of 9,245,438 people (as of 2016) surrounding the western end of Lake Ontario.

Toronto is Welcoming over 27.5 million visitors annually, Toronto is the leading tourism destination in Canada. This bold, dynamic city offers superb attractions, music and events backed by the best convention and sports facilities in Canada.

According to some reports Toronto is considered one of the most cities that are popular with pizza accurately The Best City that serve Pizza in Canada ! and the 14th in the World ! and that show us that Toronto almost has all kind of pizza and serve it and they also have a special way for cooking it .

Toronto probably isn't the first place that comes to mind when you think pizza. Let's fix that. The Greater Toronto Area (GTA, all day!) is one of the world's best food cities. Pizza definitely gets its due in the Canadian city by the lake, a melting pot of the world's cuisines.

Data Section

2) Description of The Data and how it will be used to solve the problem :

1)) I will use Wikipedia to get the information about neighborhoods in Toronto . Like : their Names, Postal Code, and Boroughs. For that i will use "List of postal codes of Canada: M" :

Link : https://en.wikipedia.org/wiki/List_of_postal_codes_of_Canada:_M

2)) I will use this link to a csv file that has the geographical coordinates of each postal code

Link : http://cocl.us/Geospatial_data

3)) I will use the FourSquare API to collect data about locations of Pizza stores and find the best pizza restourants for you
